Modular space solutions

About Newronge

Newronge was founded in 1998. As a leading Chinese designer and manufacturer of modular office furniture, we specialize in Portable Room Dividers, modular panel systems and Modular Grid Systems.

Our full product lineup features modular structures: portable, no on-site construction required, multi-function integrated design and lightweight shipping. The units can be freely split and reconfigured anytime to quickly remodel office spaces.

Newronge always seeks the right customers from all of the world to build up the strategic cooperation partner relations. With the common goals of increasing sales, we value innovation and solution-based thinking to achieve our mutual goals. Outstanding customer service is important to us. We want you to contact us with any need and be assured that we will do everything we can to accommodate your request.

We pride ourselves on being able to meet or exceed industry standards of manufacturing. The majority of our product line is manufactured under strict quality control. We take pride in our quick turn-around and R & D capabilities, which enable us to provide prompt service in an industry that demands efficiency.

Designer Introduction

Our core industrial designer specializes in modular office partition systems and modern workspace furniture. With extensive European design experience, he integrates minimalist German functional aesthetics, flexible modular logic and human-centered office ergonomics into every product sketch.

He leads the full-cycle design development of our Modular space solutions, from hand-drawn conceptual drafts, structural iteration to prototype optimization. Balancing artistic visual expression with mass production feasibility, his design language delivers adaptable, space-efficient office solutions that meet the diverse layout demands of European modern offices.

Driven by the philosophy of "flexible space, simple beauty", he continuously refines the mobility, assembly efficiency and texture details of our screen and divider products, creating timeless, practical furniture suitable for global commercial office environments.

PORTABLE ROOM DIVIDERS

— *elastic physical spaceelastic*

Portable room Dividers with customizable full-surface UV printing.

Multi-panel foldable design to flexibly separate negotiation zones, exhibition aisles or rest areas.

Silent lockable casters ensure stable placement; fabric/laminate surface optional.

Reusable for long-term office renovation and periodic trade show builds.

Creates instant private spaces without permanent wall construction.

This wheeled, connectable fabric Portable Room Divider belongs to the flexible modular partition wall system for MOBILE OFFICE FURNITURE. It can be freely combined to build meeting rooms, private negotiation booths and office buffer zones. Ideal for rapid space segmentation in open-plan offices, co-working spaces, industrial parks and corporate work areas. No civil construction work is required, and disassembly, assembly and reconfiguration are quick and effortless.

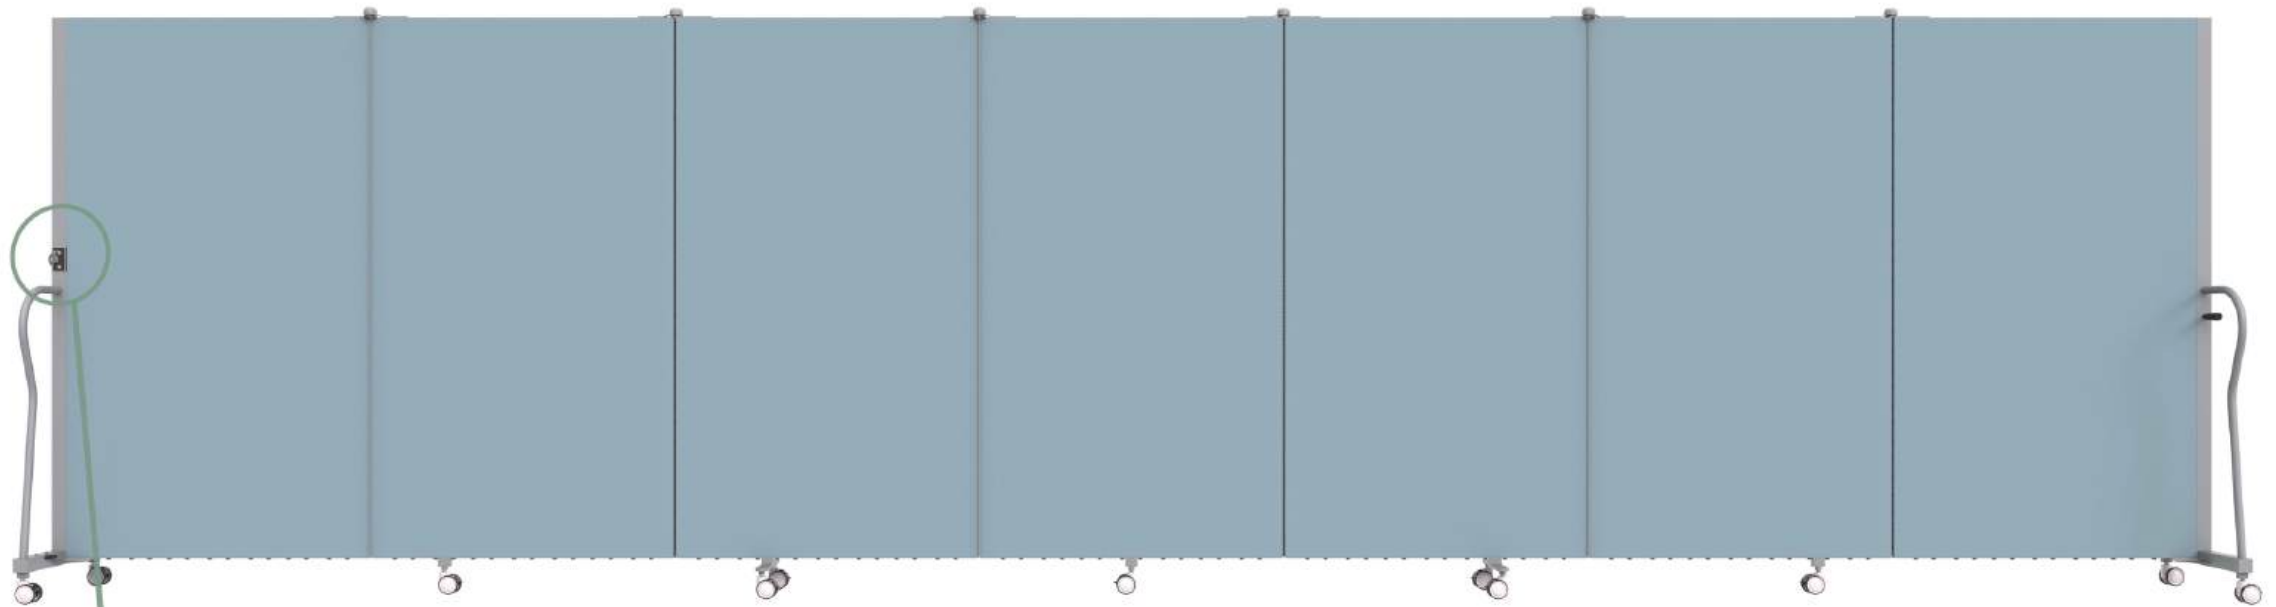

It can serve as an independent storage space

Hidden Connection

Many times it is difficult to close a Portable Room Dividers, disjunctive space planning out what we want, so, we installed the hidden connection respectively on both sides of the Portable Room Dividers, multiple sets of segmentation can be wired together and there is no gap, and at the same time, to protect the privacy of your information and does not destroy the whole beautiful, bring you comfortable space.

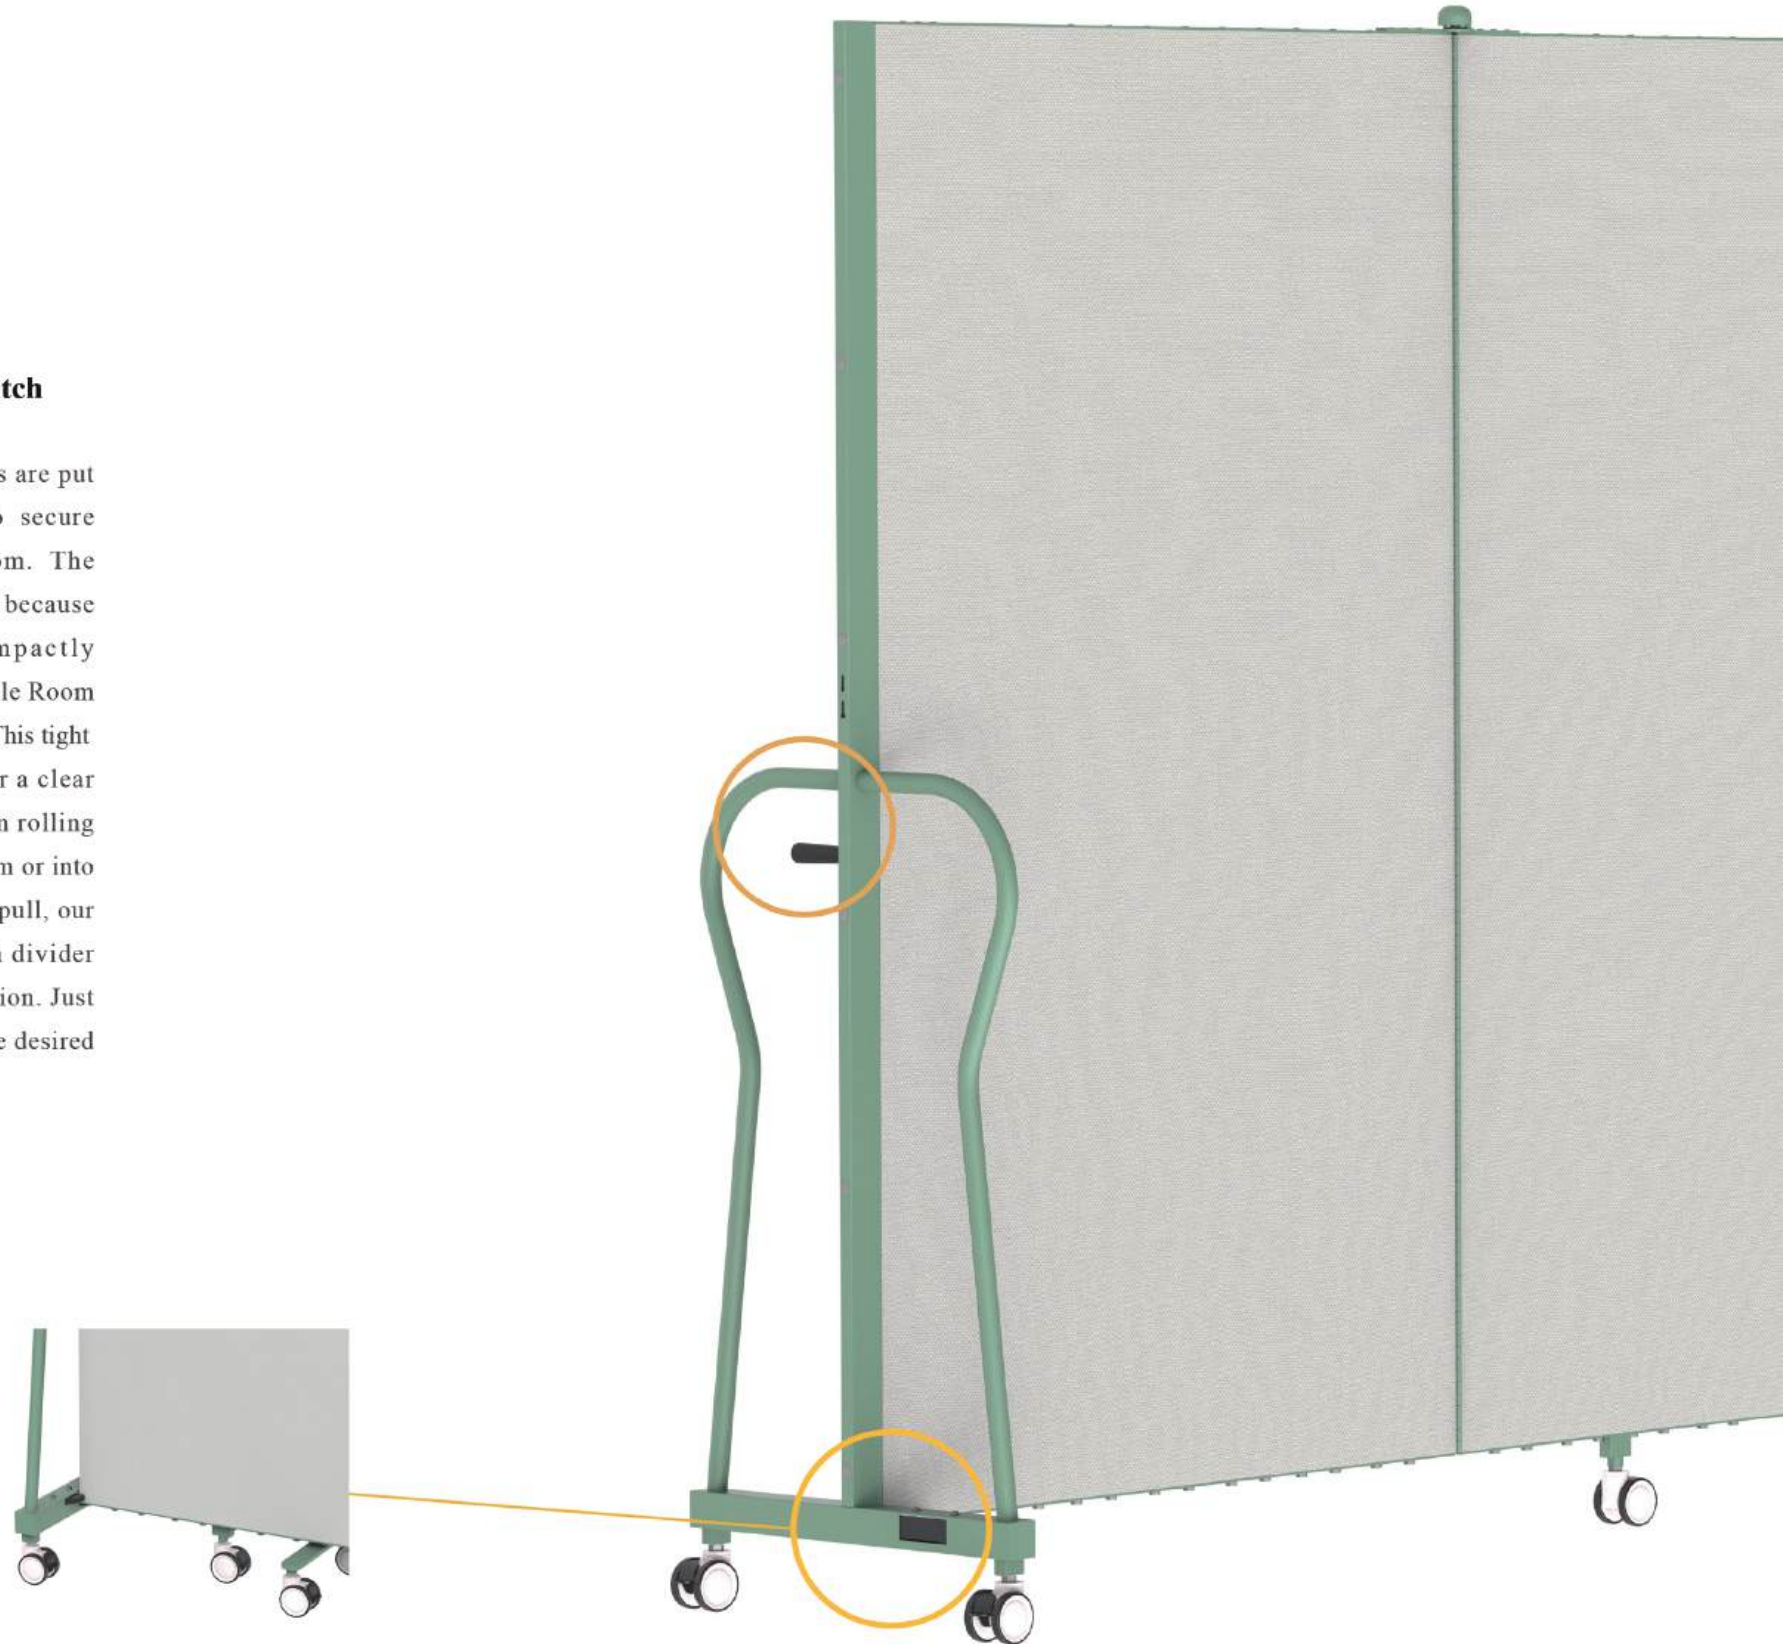

FABRIC PANEL

Soft fabric surface with built-in high-density sound-absorbing boards to block ambient noise for noise reduction, delivering gentle and elegant appearance.

Secure Storage Latch

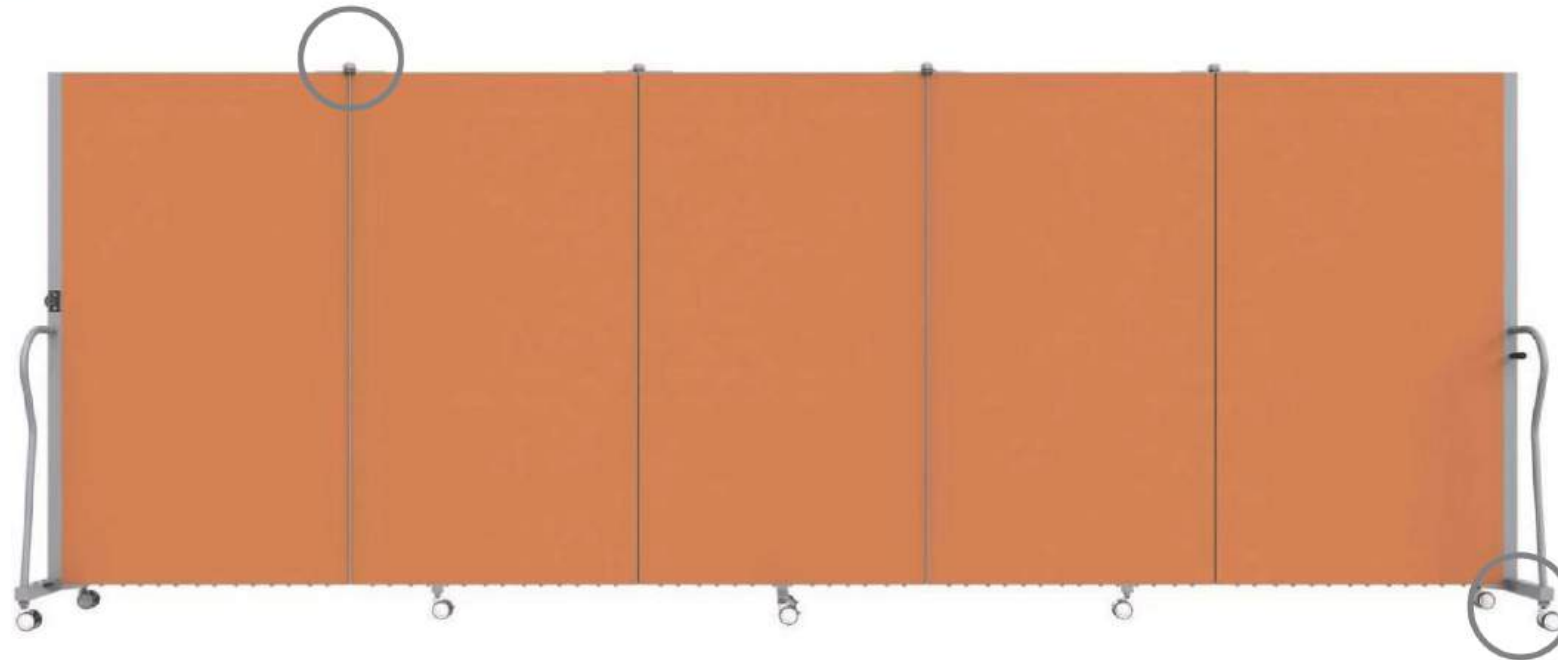

Portable Room Dividers are put into storage mode with Two secure storage latches on the bottom. The storage latches are essential because they keep the panels compactly together when moving Portable Room Dividers from place to place. This tight configuration offers the user a clear view around the panels when rolling the divider from room-to-room or into position. With just a gentle pull, our latch lock releases the room divider panels from the locked position. Just walk the divider open into the desired configuration.

Position Control Hinge

Position Control Hinges are a standard feature on all Portable Room Dividers and is located at the apex of each hinge. It provides consistent resistance throughout the entire range of motion of the divider panels. This resistance enables you to easily position the panels fully opened, fully closed, 90° or 180°. When the divider is opened, the soft click of the Position Control Hinges means that each panel is secured into any desired angle until you move the divider again. The Position Control Hinges makes setting up, moving and closing the divider smooth and effortless.

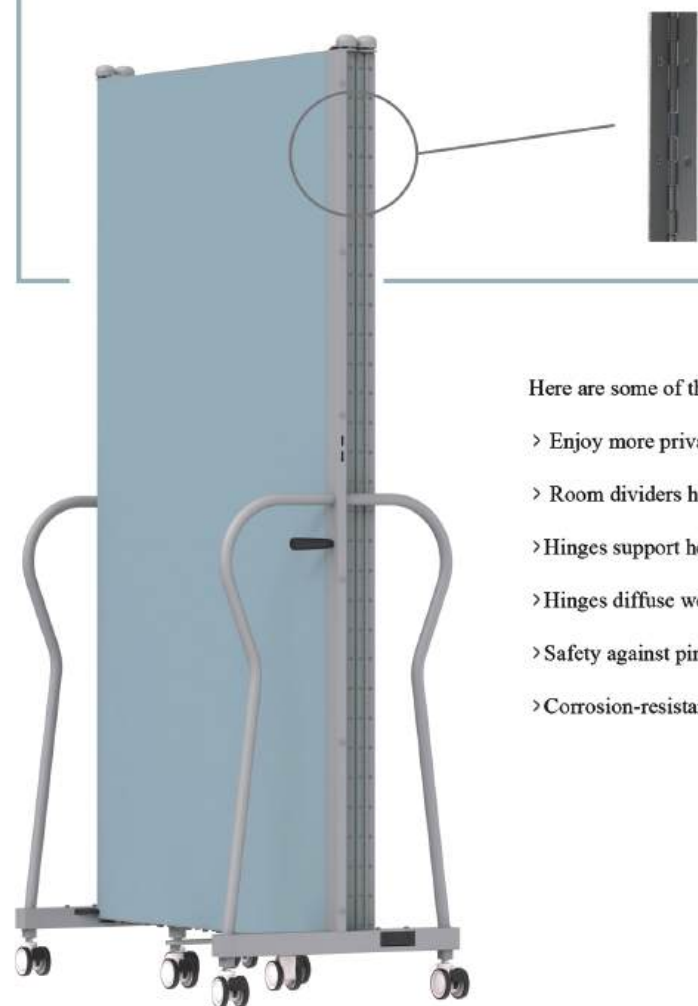

The assembly of the self-Leveling Casters makes us move more convenient and labor-saving, can better control the direction, forward, backward and even turn, can be easily solved, And quiet design, so that we do not disturb others in the move. We installed the brake on the self-Leveling Casters, when we move to the position we want, just need to step on the brake, you can fix the position of the portable room dividers, do not worry about the position of the offset.

Self-Leveling Casters

Full-Length Hinges

One of the features we are most proud of at Portable Room Dividers is our room divider hinge. We use hinges with wall thickness not less than 1.2mm and it could evenly distribute any weight to minimize stress on the panels and to maintain the alignment of the divider. This solid construction provides you with a room divider that is stable and long-lasting. Additionally, the Full-Length Hinges creates a pivot action that moves smoothly and keep the gap between panel and panel minimization, effectively protect privacy. The range of motion the hinges yield allow you to arrange the divider into multiple configurations with ease.

Here are some of the benefits Full-Length Hinges provide for your dividers:

- › Enjoy more privacy due to the sight proof design of the hinges
- › Room dividers have a more attractive and uniform appearance
- › Hinges support heavy vertical loads
- › Hinges diffuse wear and tear
- › Safety against pinched fingers is an added bonus
- › Corrosion-resistant

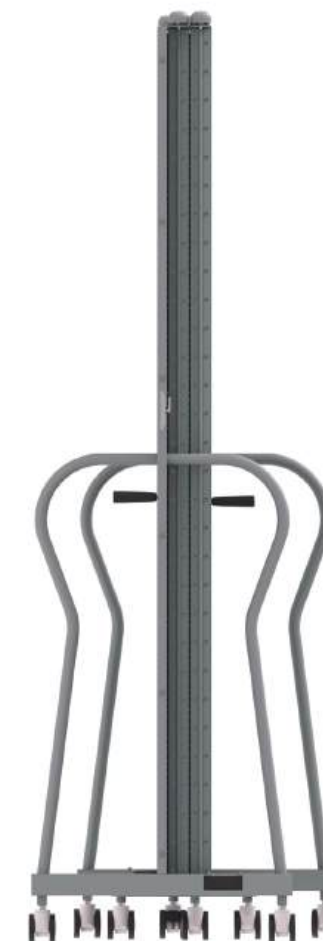

SPECIFIC DIMENSIONS:

- › Single panel standard size: 1000mm in width
- › 3 panels per set: expanded total length 3100mm
- › 5 panels per set: expanded total length 5100mm
- › 7 panels per set: expanded total length 7100mm
- › Optional heights: 1300mm / 1950mm / 2150mm

Material: acoustic panel

MODULAR PANEL SYSTEMS

— *newronge, new design*

Modular Panel Systems with universal hanging slot structure.

Equipped with wooden shelves, coat rails, brochure holders and display boards.

Freely spliced into L-shape or straight backdrop to build independent functional corners.

Rolling base enables quick relocation; magnetic surface supports poster & graphic updates.

Ideal for office storage corners, staff lounge areas and brand showcase booths.

APPLICATION SCENARIOS

MODULAR PANEL SYSTEMS

newronge, new design

> MODULAR FREE COMBINATION

Standard partition units support unlimited splicing, addition and removal. The layout can be adjusted anytime, and the whole system can be disassembled and reused when enterprises relocate.

> MULTI-LAYER INTEGRATED FUNCTIONS

Partitions are built-in with perforated storage zones, open bookshelves, green plant landscape slots and mounting positions for embedded display screens.

> ACOUSTIC NOISE REDUCTION DESIGN

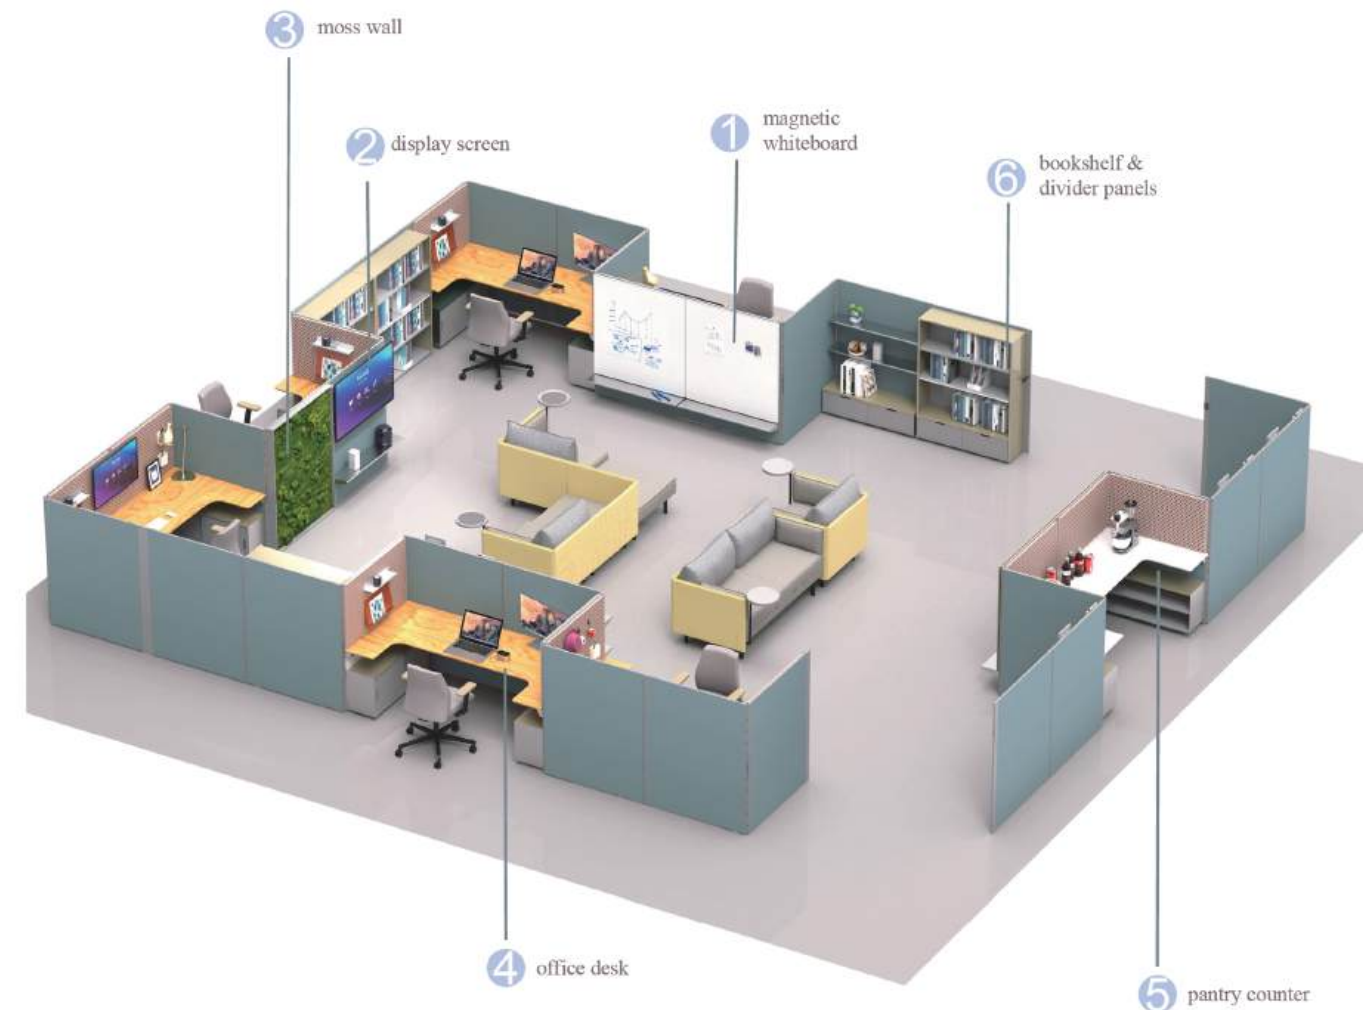

> High-density fiberboard base with fabric soft covering effectively blocks conversation and equipment noise in workstations.

> FULL-SCENARIO ADAPTABILITY

> Customizable layouts for private staff workstations, pantries, lounge sofa areas, small negotiation zones and brainstorm whiteboard booths.

> DIVERSIFIED SURFACE FINISHES

> Multiple panel options for free selection: solid-color fabric, perforated boards, ecological green plant panels and printed decorative veneers.

FLEXIBLE
INSTALLATION

FAST DISASSEMBLY &
ASSEMBLY

MULTIPLE APPLICATION
SCENARIOS

SET UP NEW OFFICE SCENES IN 30 MINUTES

Composed of modular units to deliver diversified spatial solutions

> PRIVATE WORKSTATION MODULE

No professional construction required. Two staff can assemble full office zones including workstations, negotiation areas and lounge spaces within half an hour.

> DISCUSSION WHITEBOARD NEGOTIATION MODULE

> INFORMATION DISPLAY & GREEN PLANT MODULE

> WATER BAR MODULE

MODULAR GRID SYSTEMS

— *boundless space,
boundless ideas*

Modular grid systems with unified
400×400mm cube modules.

Mix open storage, closed cabinet
inserts and plant ledges at will.

Works as room divider, bookcase,
display stand and green landscape
frame all in one.

Flat-packed for cost-effective ocean
shipping, lightweight for repeated
disassembly & assembly.

Perfect for co-working hubs,
creative offices and exhibition
display zones.

MODULAR GRID SYSTEMS

Modular Metal Grid Storage System

Open-structured, combinable & expandable, to build flexible space storage and display solutions

>>>

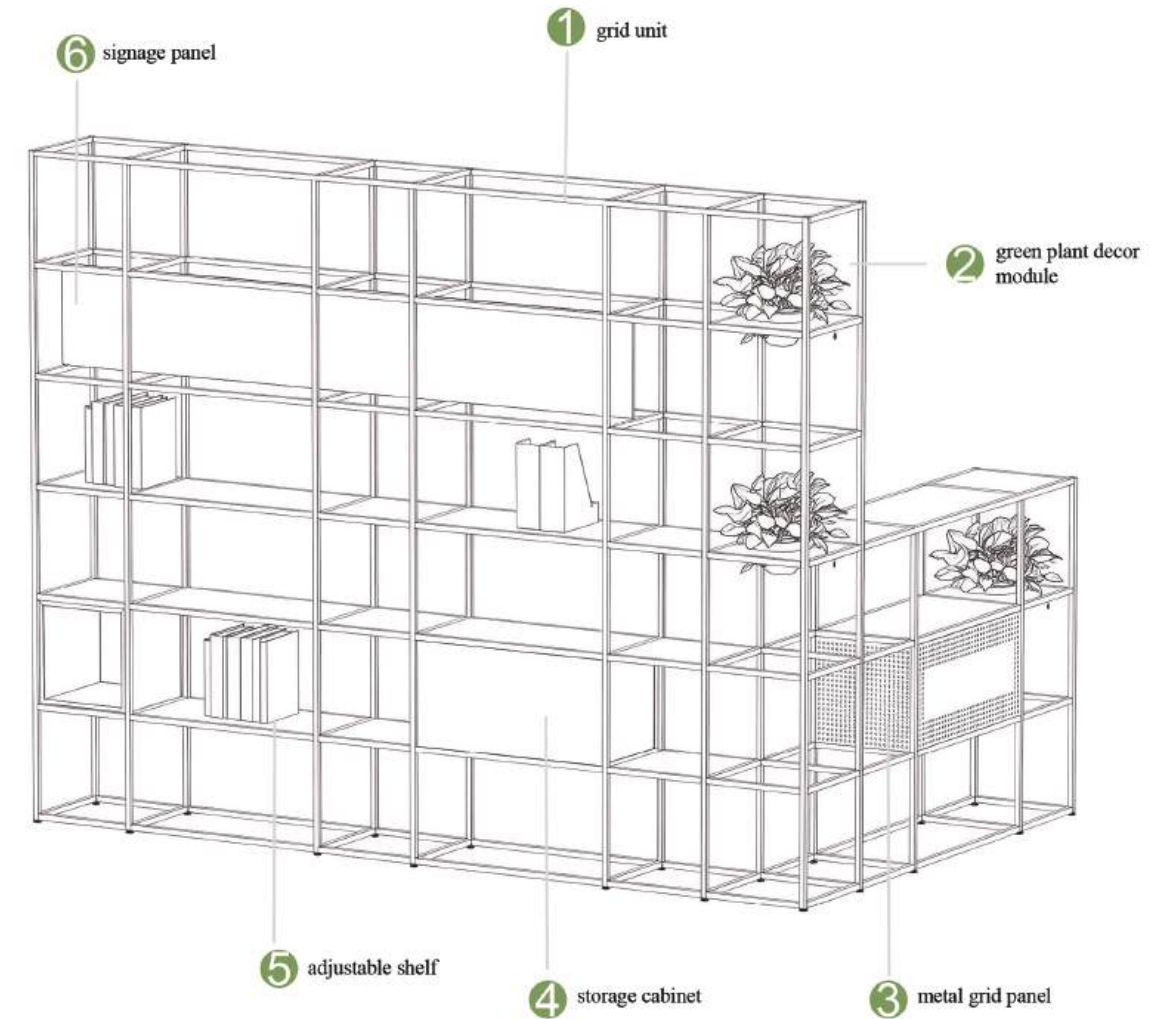

FRAMEWORK: Unlimited splicing & extension, freely compatible with all types of shelves and functional modules

COMBINATION: Shelves, cabinets and plant boxes can be customized as required

APPLICATION SCENARIOS: Suitable for offices, exhibition halls, retail stores, residences and public spaces

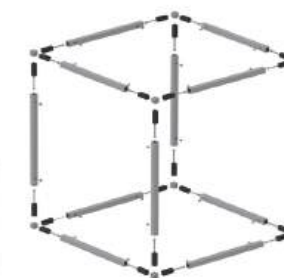

STRUCTURE DESCRIPTION

Standard Grid Frame & Combined Modules

Two distinct connection structures are adopted.

MOBILE OFFICE FURNITURE

>>> **Training table**
System solutions that are both "efficient" and "aesthetic"

>>> **Training table**
The precisely designed aluminum base injects stability into its lightness. It is not only the cornerstone of structure, but also an expression of aesthetics - durable and worthy of long-term attention.

>>> **Meeting Table**
Amobile workstation, a haven for creativity. When work is no longer confined to a single height, and when inspiration needs to be captured at any moment, a table that can be easily moved becomes the "first scene" of thought.

>>> **Mobile Writing Stool**
Mobile fabric stool with swivel casters and detachable side writing tablet, ideal for office training, discussion and casual workspace.
