Modular space solutions

About Newronge

Newronge was founded in 1998. As a leading Chinese designer and manufacturer of modular office furniture, we specialize in modular space solutions，including portable room dividers, modular panel systems ,modular grid systems and modular wall.

Our full product lineup features modular structures: portable, no on-site construction required, multi-function integrated design and lightweight shipping. The units can be freely split and reconfigured anytime to quickly remodel office spaces.

Newronge always seeks the right customers from all over the world to build up the strategic cooperation partner relations.With the common goals of increasing sales,we value innovation and solution-based thinking to achieve our mutual goals. Outstanding customer service is important to us. We want you to contact us with any need and be assured that we will do everything we can to accommodate your request.

We pride ourselves on being able to meet or exceed industry standards of manufacturing. The majority of our product line is manufactured under strict quality control. We take pride in our quick turn-around and R & D capabilities, which enable us to provide prompt service in an industry that demands efficiency.

Designer Introduction

Our core industrial designer specializes in modular office partition systems and modern workspace furniture. With extensive European design experience, he integrates minimalist German functional aesthetics, flexible modular logic and human-centered office ergonomics into every product sketch.

He leads the full-cycle design development of our modular space solutions, from hand-drawn conceptual drafts, structural iteration to prototype optimization. Balancing artistic visual expression with mass production feasibility, his design language delivers adaptable, space-efficient office solutions that meet the diverse layout demands of European modern offices.

Driven by the philosophy of "flexible space, simple beauty", he continuously refines the mobility, assembly efficiency and texture details of our screen and divider products, creating timeless, practical furniture suitable for global commercial office environments.

PORTABLE ROOM DIVIDERS

Portable room Dividers with customizable full-surface UV printing.
Multi-panel foldable design to flexibly separate negotiation zones, exhibition aisles or rest areas.
Silent lockable casters ensure stable placement; fabric/laminate surface optional.
Reusable for long-term office renovation and periodic trade show builds.
Creates instant private spaces without permanent wall construction.

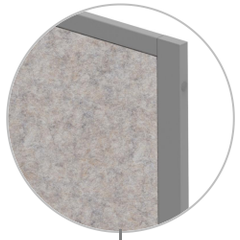

Product Details

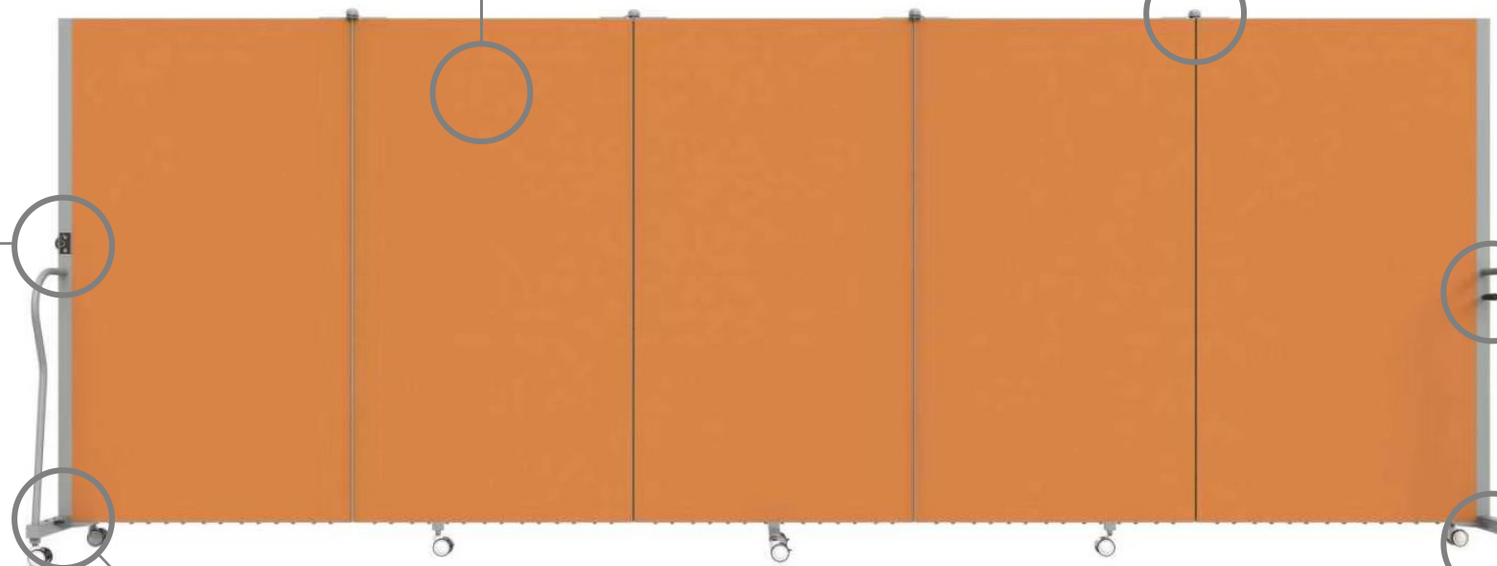

Hidden Connection

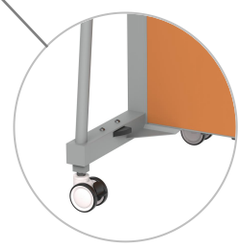

Hidden side connectors join divider panels seamlessly gap-free for enhanced privacy and clean appearance.

Fabric Panel

Soft fabric surface, with optional high-density acoustic panels to block ambient noise for noise reduction, delivering gentle and elegant appearance.

Secure Storage Latch

Portable Room Dividers can be locked compactly for transport by two-bottom storage latches and easily unlocked and unfolded into your required layout with a gentle pull.

Position Control Hinge

Position-control hinges on all portable room dividers lock panels at any angle for smooth, effortless adjustment.

Secure Storage Latch

Portable Room Dividers can be locked compactly for transport by two-bottom storage latches and easily unlocked and unfolded into your required layout with a gentle pull.

Self-Leveling Casters

Self-leveling casters deliver smooth, quiet movement, with an integrated brake to secure the divider firmly at your desired position.

This wheeled, connectable fabric Portable Room Divider belongs to the flexible modular partition wall system for Mobile Office Furniture. It can be freely combined to build meeting rooms, private negotiation booths and office buffer zones. Ideal for rapid space segmentation in open-plan offices, co-working spaces, industrial parks and corporate work areas. No civil construction work is required, and disassembly, assembly and reconfiguration are quick and effortless.

>>> It can serve as an Temporary storage space

›Set up a temporary office

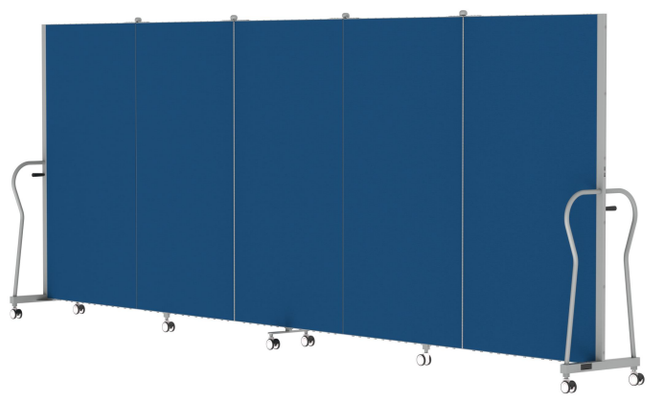

›Universal casters allow free movement for flexible layout adjustments.

›Option to install built-in sound absorbing panels.

› For exhibition construction

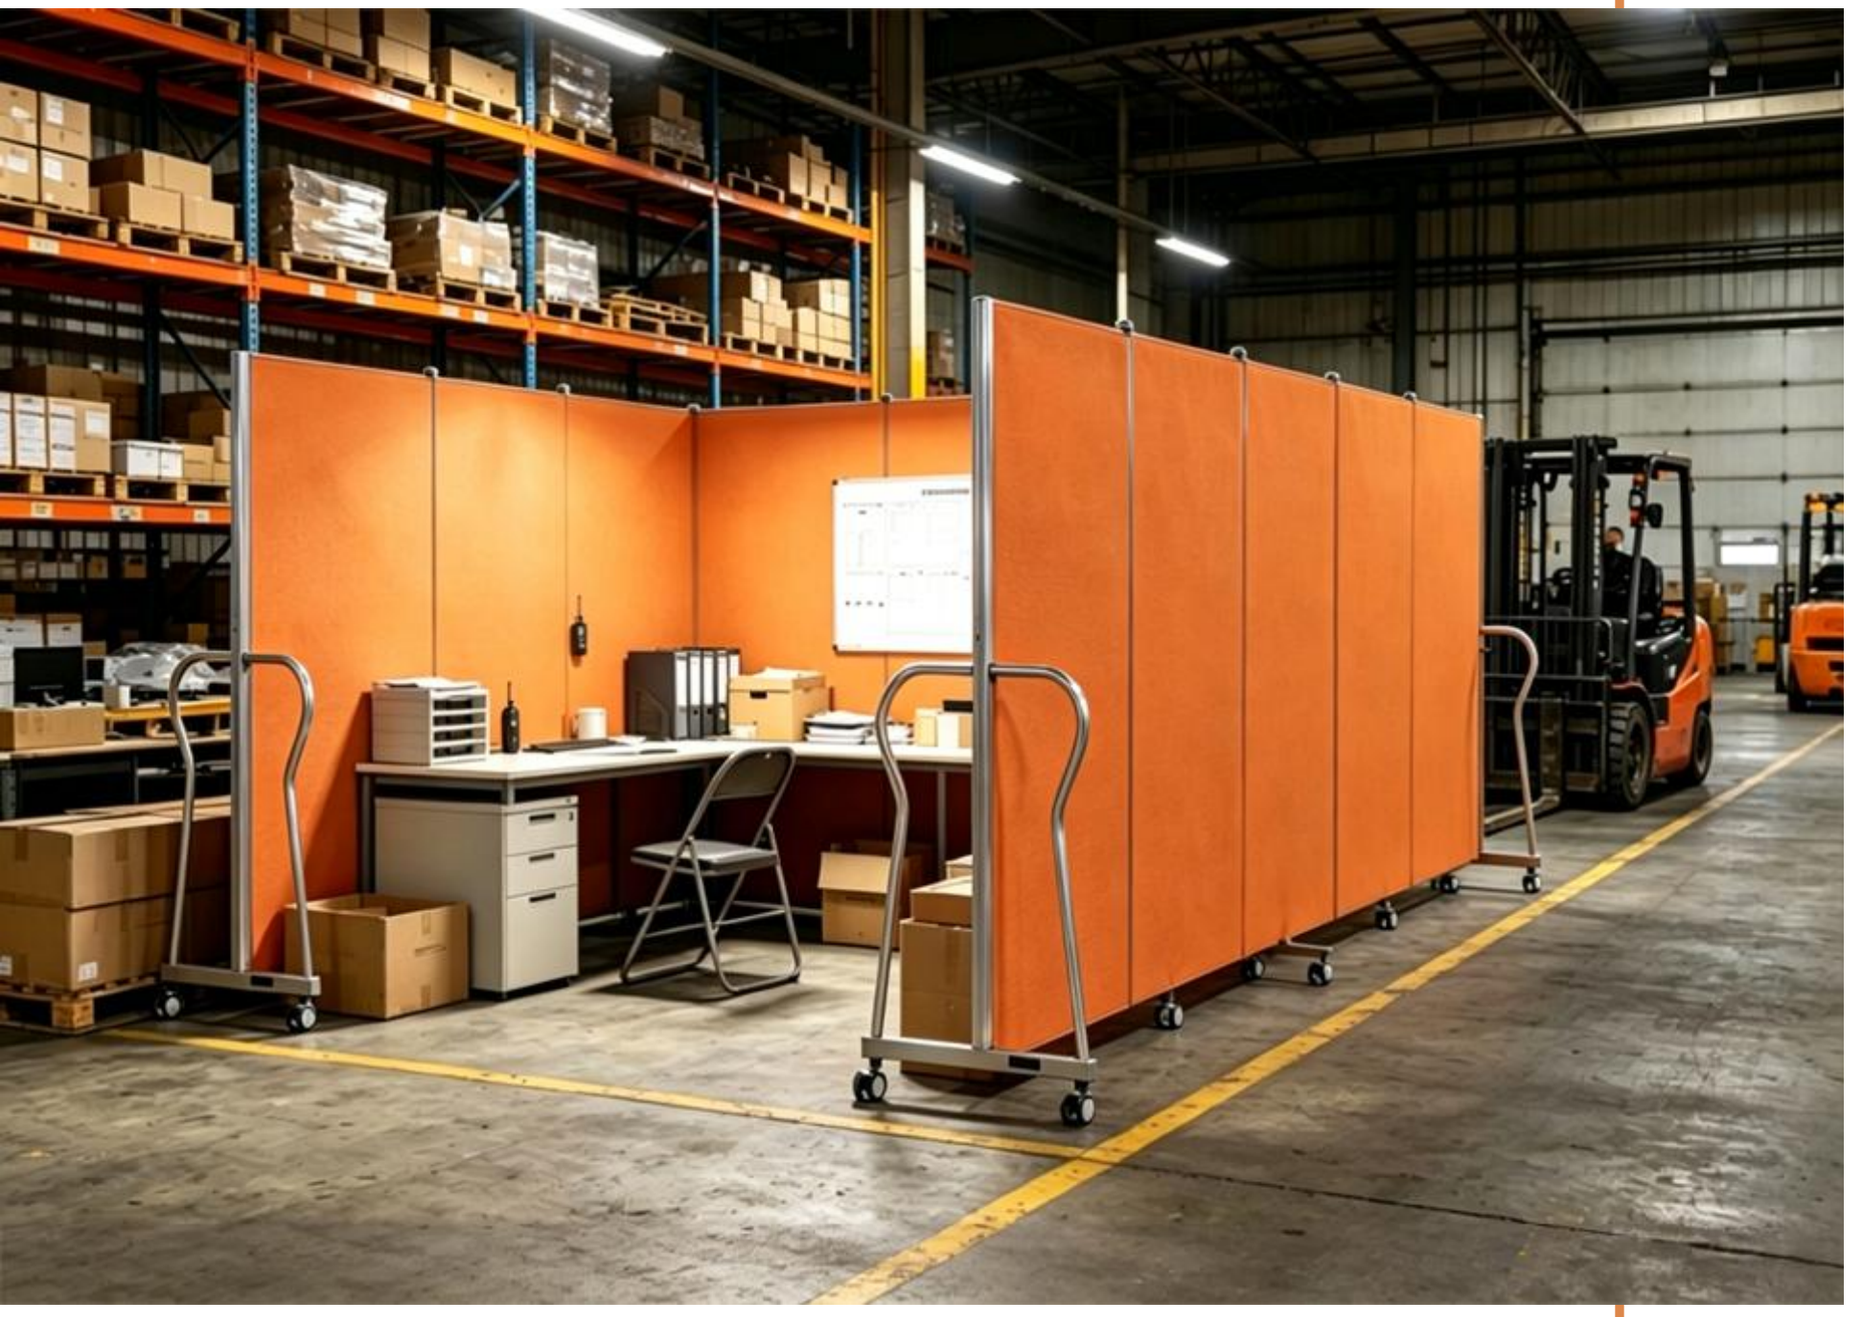

›No hard-installation renovation needed. Multiple panels join together for full enclosure, instantly separating independent training and sharing venues within open lobbies.

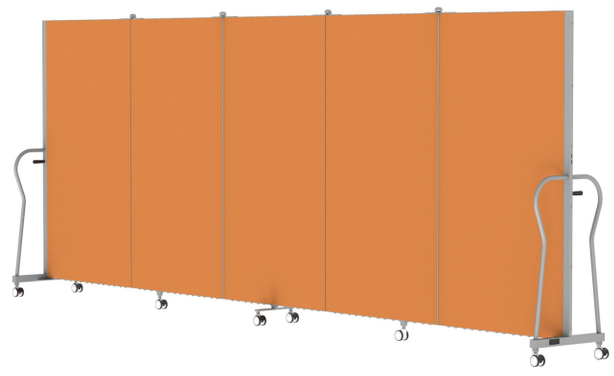

›Spaces can be reorganized on demand, suitable for training sessions, salons and mini-forums.

› Set up the workshop office

› Within noisy warehouse environments, they create private work zones for dispatch, quality-inspection and back-office personnel.

Training table
System solutions that are both "efficient" and "aesthetic"

Meeting Table
A mobile workstation, a haven for creativity. When work is no longer conlined to a single height, and when inspiration needs to be captured at any moment, a table that can be easily moved becomes the "first scene" of thought.

Training table
The precisely designed aluminum base injects stability into its lightness. It is not only the cornerstone of structure, but also an expression of aesthetics durable and worthy of long-term attention.

Mobile Writing Stool
Mobile fabric stool with swivel casters and detachable side writing tablet, ideal for office training, discussion and casual workspace.

Complete Accessories,
Perfect Site Matching

06

ACCESSOIRES

Complete range of office-site accessories, including queue-control stanchions, acoustic divider panels, mobile storage trolleys, coat hanger units, planter boxes and waste-storage units.

Rich in styles and colours. Perfectly match modular wall systems and modular office furniture. Satisfy diversified supporting demands for airports, offices, exhibition halls and public venues.
